

UNITED STATES DEPARTMENT OF JUSTICE

FEDERAL BUREAU OF INVESTIGATION

WASHINGTON, D.C. 20535

March 1, 1979

SUGGESTED TOPICS FOR CONSIDERATION AT THE
TWO-DAY MEETING OF SECURITY COMMITTEE
PRINCIPALS, SUBCOMMITTEE AND WORKING
GROUP CHAIRMEN, AND SECURITY COMMITTEE
STAFF, MARCH 13-14, 1979

1. AUTHORITY OF SECURITY COMMITTEE

DCID 1/11 should be reconsidered and perhaps rewritten to clearly set forth the authority and responsibilities of the Security Committee (SECOM). Should greater participation and Intelligence Community support be mandated? What is the authority of SECOM, directly or through the DCI, to supervise or oversee Intelligence Community procedures? Should uniform regulations and procedures be developed for the Intelligence Community as relates to security?

2. POLYGRAPH

Should SECOM develop uniform requirements and procedures for the Intelligence Community as regards polygraph use? Should a mandatory or advisory DCI Directive be issued? Should Intelligence Community polygraph training, services, and procedures be centralized? Is the polygraph cost-effective?

3. INVESTIGATIVE STANDARDS

Should investigative standards for Intelligence Community personnel and contractor personnel be standardized? Does SECOM have the power to insist upon uniformity and application of standards? Should SECOM play a role in reformulation of Executive Order 10450 as relates to suitability?

Suggested Topics for Consideration at the Two-Day Meeting of Security Committee Principals, Subcommittee and Working Group Chairmen, and Security Committee Staff, March 13-14, 1979

4. CROSS-FERTILIZATION

The Intelligence Community has, on an increasing basis, exchanged personnel and experience in operative areas. Is the cross-fertilization of value, cost-effective? Should SECOM encourage cross-fertilization through exchange of personnel, participation in training, standardized responsibilities in the areas of security awareness, support of research, case histories, etc.?

David Ryan
Security Officer
(SECOM Member)
